Notes:

1. Learning Outcomes of Study Programs (CPL-PRODI) are abilities possessed by each graduate of the Study Program which are the internalization of attitudes, assignment of knowledge, and skills according to the level of study programs obtained through the learning process.

2. The CPL that is charged to the course is a number of learning outcomes for graduates of the study program (CPL-PRODI) which are used for the formation/development of a course consisting of aspects of attitudes, general skills, special skills, and knowledge.
3. Course CP (CPMK) is the ability that is specifically described from the CPL that is charged to the course, and is specific to the study material or learning material for the course.
4. Subject Sub-CP (Sub-CPMK) is the ability that is described specifically for the learning material of the course.
5. Indicators of the assessment of ability in the process and student learning outcomes are specific and measurable statements that identify the ability or performance of student learning outcomes accompanied by evidence.
6. Assessment Criteria are benchmarks used as measures or benchmarks for learning achievement in assessment based on predetermined indicators. The assessment criteria are guidelines for assessors so that the assessment is consistent and unbiased. Criteria can be both quantitative and qualitative.
7. Assessment techniques: test and non-test.
8. Forms of learning: Lecture, Response, Tutorial, Seminar or equivalent, Practicum, Studio Practice, Workshop Practice, Field Practice, Research, Community Service, and/or other equivalent forms of learning.
9. Learning methods: Small Group Discussion, Role-play & simulation, discovery learning, self-directed learning, cooperative learning, collaborative learning, contextual learning, project-based learning, and other equivalent methods.
10. Learning materials are details or descriptions of study materials that can be presented in the form of several main points and sub-topics.
11. The weight of the assessment is the percentage of assessment of each achievement of the sub-CPMK which is proportional to the level of difficulty of achieving the sub-CPMK and the total is 100%.
